

### In the Spotlight

#### FRENCH TECH

##### **Shape your future with the international Master in Telecommunications and Networks**

The Master in Telecommunications and Networks of Cnam Electronics, Electrical Engineering and Applied Physics Department (EEAP) is a two-year full-time program. Created in 2014, it trains students to become managers or project leaders in international telecommunications companies or those in other sectors that have a specific telecommunications department.

#### MASTER T&R

##### **Welcoming international students**

On October 7th, 2021, we welcome international students coming from 8 countries to join our Master's program in Telecommunications and Networks.

#### CAREER

##### **Job dating with VPI Telecom**

On December 01, 2021, a jobdating with VPI is organised via Teams.
